About me

I'm a curious and motivated computer science student who loves building things that make a difference. Whether it's developing websites or creating content, I enjoy tackling challenges and learning along the way. I'm always excited to grow, collaborate, and contribute to meaningful projects.

Training / Courses

Web Design & Development Course — **I'm currently enrolled in a course offered by NSDC to learn about web design and development. Throughout this program, I will be learning about HTML, CSS, JS, and further enhancing my skills and knowledge in this particular field.**

Programming With Python — **I'm Completed in a 6-week online certification program for Python programming through Internshala. The program covers a wide range of topics including Python introduction, variable usage, basic programming principles, object-oriented programming, SQLite database connectivity, PyQT GUI development, Python application in different fields, final project, and AI in Python programming. As part of the program, I am also working on a project called 'Fantasy Cricket Game'.**

Experience

Digiglobe Solutions   **Sadabad (U.P.)**
Web Developer   **08/2024 - 09/2024**

Completed a web development internship at Digiglobe Solution, working on real-world projects like designing an elegant hero section. Enhanced skills in JavaScript, React.js, and responsive web design.

Oasis Infobyte   **Sadabad (U.P.)**
Web Designing & Development Intern   **10/2023 - 11/2023**

Completed a web development internship at Oasis Infobyte, where I built responsive websites and improved my front-end skills. Gained practical experience in creating user-friendly designs and layouts.

Edumound   **Sadabad (U.P.)**
Content Creator   **04/2023 - 06/2023**

Interned as a content creator at Edumound, where I developed engaging articles on various topics and honed my writing skills. Contributed to enhancing the platform's content quality and outreach.

Projects

Language Translator   Live   **June 2024-Aug 2024**

Developed a responsive language translator using JavaScript and APIs, enabling real-time translation between multiple languages with an intuitive user interface.

Kitaab Kharido (E-Commerce)   Live   **Dec 2023-Feb 2023**

Designed and developed a user-friendly e-commerce platform using HTML, CSS, JavaScript, and PHP, facilitating seamless book browsing, searching, and purchasing with integrated cart and payment options.

Movie Database   Live   **July 2024-Sep 2024**

Developed a responsive movie database using HTML, CSS, JavaScript, and a public movie API, enabling users to search, filter, and view detailed movie information with a sleek UI.
